1. **Our Research Question** (1–2 paragraphs)
   ○ What are you trying to predict? Why is it interesting?
     - Does economic prosperity lead to more political and civil freedom

2. **Observation Definition** (a couple sentences)
   ○ What is a single data point/ what does a row in our dataset represent in our study?

3. **Our Prediction Type** (1 paragraph)
   ○ Supervised vs. unsupervised? Classification or regression?

4. **Planned Models and Methods** (2ish paragraphs)
   ○ Which models are we going to use? Why? How will we tune or evaluate them?

5. **Success Metrics** (1 paragraph)
   ○ How will we know that the the model is working? What metrics are we using?

6. **Anticipated Challengess** (1 paragraph)
   ○ What are some potential challenges that we might face during the project

7. **Feature Engineering / Prep Work** (optional, 1 paragraph)
    ○ How are we preparing the data before utilizing it for models and analysis

8. **Results Presentation Plan** (optional, 1 paragraph)
    ○ How are we going to present the findings, graphs, charts,
